

In the name of God, the Most Gracious, the Most Merciful

His Majesty King Abdullah II, may God protect him and guide him

Assalamu Alaikum wa rahmatu Allah,

Your positions demonstrate your Arabism and nationalism, especially during this critical time our nation is witnessing in which you refused to give up any of the country's and nation's inalienable rights. You have proven to those near and far that under your rule, Jordan has not and will not make any concessions that will take away from its humanitarian dignity and national sovereignty across all of its national soil.

Your Majesty,

We, the Tamimi family in the Hashemite Kingdom of Jordan, Palestine and in the diaspora, appeal to you to work on closing the case against our daughter and yours, [Ahlam Aref Al-Tamimi](#), in the United States of America, which has come to your attention. As part of this case, the US administration is [demanding](#) that the Kingdom extradite our daughter for purposes that are not legal, but obviously political.

Your Majesty,

We are aware of the enormous [amount of pressure](#) exercised in this matter, but we know even more that the proud and faithful people of Jordan, over whom you preside, will not accept any harm to their proud, faithful and free sisters. They are always protected under Hashemite patronage and care.

Hence, we appeal to Your Majesty, as you prepare for your upcoming visit to the United States to conduct meetings and deliberations with its administration, to work on completely closing this case with the American administration and keeping their hands off of our precious daughter and end the calls for extradition.

May Allah protect you as the guardian of the Hashemite home and guide you.
